Stearine, lb.	41,000	Refined oil, gals., 1,232.
Grease, lb.	25,000	Refined oil, gals., 1,232.
Soybean, exp. gal.	3,940	Refined oil, gals., 1,232.

## GENERAL MARKET REPORT.

New-York	Aug. 14, 1905.	Aug. 14, 1905.
COFFEE—The coffee market showed continued activity and firmness on further reports of demand to-day. The opening was steady at unchanged prices, which was about in line with featureless cables, but which had developed an advancing tendency on an increased demand from bullish sources and at the close was about 10¢ higher. The market was reported to-day as being very closed and will remain closed to-day, but Hamburg, after early indifference, advanced to 16 1/2 p. The British market, according to the London Standard, said the frost had done great damage and that the weather was still threatening. The reports of frost are considered questionable whether temperatures were low enough over a sufficient area to cause very material damage, but the August flower receipts at the two ports, as reported by the morning cables, were 45,000 bags, against 52,000 last week, and the interior market, which was reported to have been high, was also closed to-day. The probabilities that the total for the month will run some figures further, but a comparison of the two views of the fact that the weather is cooler and there will be a good deal more frost than there has been up to date, suggests a further rise. The market was steady, as follows: New-York, 16 1/2 p.; Hamburg, 16 1/2 p.; Liverpool, 16 1/2 p.; Paris, 16 1/2 p.; Rio, 16 1/2 p.; San Francisco, 16 1/2 p.; Sydney, 16 1/2 p.; Tokyo, 16 1/2 p.; Valparaiso, 16 1/2 p.; and other markets, 16 1/2 p.	16 1/2 p.	16 1/2 p.
